Summary

Computer Science graduate skilled in Java, Python, SQL, OOP, DSA, REST APIs, Manual Testing, Functional Testing, API Testing, and SDLC. Experienced in MERN development, debugging, test case execution, defect tracking, and application validation. Strong problem-solving, teamwork, communication, and learning abilities, seeking an entry-level Systems Engineer role.

Education

Kamala Institute Of Technology And Science, Singapuram
Bachelor Of Technology (Computer Science And Engineering) | ***7.3*** *2022 – 2026*

Projects

QuizQuest | *MERN Stack, REST APIs*

- Developed a full-stack MERN quiz platform with user authentication, category-based quizzes, and performance tracking.
- Designed RESTful APIs for question management and user progress storage.
- Implemented dynamic UI using React and ensured real-time result evaluation.
- Improved user interaction by implementing dynamic quiz flows and structured result tracking.

Eco-Mate | *Web Technologies*

- Developed "Eco-Mate," a social media platform focused on climate awareness, enabling meaningful discussions through expert-led forums and community engagement.

Smart Water Monitor | *ESP8266, Blynk*

- Designed and implemented an IoT-enabled irrigation monitoring system using ESP8266 and Blynk.
- Enabled real-time soil moisture tracking and automated water management, improving efficiency and reducing water wastage.

Skills

Programming Languages: Python, Java
Frontend: HTML, CSS, JavaScript
Databases: MySQL, MongoDB
Tools: Git, GitHub
Soft Skills: Communication, Team Collaboration, Logical Reasoning, Problem Solving
Core CS: OOP, Data Structures & Algorithms
Software Engineering: SDLC, Agile/Scrum, REST APIs, API Integration

Awards & Achievements

- Selected among the Top Entries in the **TASK Ideathon** (Telangana Academy for Skill and Knowledge) representing KITS, Singapur, for developing an innovative solution to real-world societal challenges.
- Awarded a **10,000 cash prize** along with an official Certificate of Recognition for outstanding performance in ideation and innovation.
- **NCC Cadet** (C Certificate Holder) – Demonstrated leadership, discipline, and teamwork through active participation in training and field activities.

Certifications

- **Java Full Stack With React JS & AI** - Brain O Vision
- **Google AI-ML Virtual Internship** - Eduskills Academy
- **National-Level Workshop On AI Application Development** - AICTE
- **MERN Stack Internship** - Brain O Vision
- **TASK i4TS 2.0 Ideathon Participant** - TASK
